

HENRY R. SMITH

605 Apgar View, Columbia Falls, MT 59912

(406) 890-1470 ♦ hrsmith@mit.edu

LinkedIn: [linkedin.com/in/henry-smith-mit/](https://www.linkedin.com/in/henry-smith-mit/)

EDUCATION

Massachusetts Institute of Technology

Cambridge, MA

Masters of Science in Mechanical Engineering GPA: 4.5/5.0

May 2027

Bachelor of Science in Mechanical Engineering GPA: 4.8/5.0

May 2025

Relevant Coursework: *Mechanics and Materials, Dynamics and Controls, Thermal-Fluids Engineering, Numerical Computation for Mech. Engineers, Design and Manufacturing, Measurement and Instrumentation, Engineering Systems Design, Precision Product Design*

SKILLS

- CAD Modeling: Siemens NX, Solidworks, Creo Parametric, Autodesk Inventor
- Machining Experience: NX CAM, Manual Mill, CNC Lathe, CNC Mill, Water Jet, 3-D Printing
- Mechanical Engineering Skills: GD&T, Ansys FEA, NX FEA, first-order estimates
- Software: MATLAB, Python

EXPERIENCE

Precision Engineering Research Group (PERG)

Cambridge, MA

Research Assistant

September 2025 - Present

- FREDPARRC, structural loop, actuator design, kinematics and simulation of novel unfolding shipping container concept
- Built 1/4-scale prototype of 20ft container to demonstrate functioning kinematics

Pratt Miller

New Hudson, MI

Motorsports Design Intern

June 2024 - August 2024

- Integrated 1000+ CAD files for the Corvette GT3 C8.R Z06 into file hosting service Windchill
- Solved tolerance stackup issue of suspension assembly by performing linear FEA and hand calcs
- Detailed engineering drawings using GD&T for new and old vehicle parts

John Deere

East Moline, IL

Line Manufacturing Engineering Intern

June 2023 - August 2023

- Designed part hoisting device that increased ergonomics and decreased safety risk by 10 SERA points
- Coordinated with operators and engineers to create and update Operator Method Sheets

LEADERSHIP

MIT Motorsports

Cambridge, MA

Mechanical Team Lead

June 2023 - June 2024

- Lead a team of 40+ mechanical engineering students to compete in the Formula SAE EV competition
- Developed standardized design cycle, mechanical system structure and high level vehicle architecture
- Guided mechanical technical decisions based on engineering fundamentals, resource management, timeline considerations and integration requirements

Technical Member

October 2021 - June 2024

- Designed and manufactured electrical enclosures using Siemens NX and CNC mills (MY22)
- Manufactured and assembled the rear powertrain for the racecar (MY23)
